

我们一起来 LEARN MANDARIN!

► Beginner and Intermediate Lessons 低级与中级

Private lessons in Mandarin Chinese, including speaking, reading, and writing. Times, cost, and materials (if you have a hard preference) are up to you!*

Choose northern or southern accents, traditional or simplified character sets, or learn them all!

*You tell me what you think a fair price is and choose how long to meet.

Over the last several years I lived and worked in mainland China in multiple intensive immersion programs focusing on language acquisition and in a **100% Mandarin work environment**. Still have doubts? Why not schedule a meeting and give it a whirl?
